Our Solution

Your one stop trusted advisors

Applying for New Zealand's AIP Golden Visa can be complex—allow us to navigate the process on your behalf with expertise and confidence.

As New Zealand natives, we have cultivated trusted partnerships that enable you to progress through the process efficiently and with confidence.

Mobile Migration

High-net-worth migration market.

25%

According to the Henley Private Wealth Migration Report 2024, approximately 25% of high-net-worth individuals (HNWIs) who relocate globally do so through investment migration programs, such as New Zealand's Active Investor Plus (AIP) Visa.

CHF 500M

Projections suggest that the AIP visa program could attract CHF 500m in new investments by the end of 2025, significantly boosting New Zealand's economy.

11 days

The average processing time for AIP visa applications has been streamlined to just 11 days.

New Zealand

A Safe, Sophisticated Destination for Global Investors and Families

Enjoy world-class healthcare, excellent education, robust rule of law, and a stable, open society—New Zealand offers a premium quality of life backed by integrity, transparency, and opportunity.

Healthcare

World-leading healthcare. Reflecting the country's care for its people, all New Zealanders have access to free or subsidised health and hospital care. While private healthcare insurance is not compulsory, some choose to have this as well.

Robust Legal System

Solid legal system based on English law. New Zealand's legal system is transparent, stable, and consistently ranked among the most trusted in the world.

Education

New Zealand's education system has been ranked seventh best in the world, and ranges from early childhood education through to tertiary level.

Quality of life

Clean air, low population density, peaceful cities, and balanced work-life culture.

Auckland: Ranked 9th in the 2024 Economist Intelligence Unit (EIU) Global Liveability Index, sharing the spot with Osaka, Japan.

Community: A strong sense of community is evident, with 95% of people believing they know someone they can rely on in times of need, compared to the OECD average of 91%
